

It's Money In Your Pocket!

For over 25 years, Mconnect's parent company, Multicom, Inc., has built a reputation for providing high quality products and reliable services. Today, Multicom is offering Mconnect - Next Level VoIP. Mconnect offers a unique opportunity for select resellers to participate in the growing VoIP industry with flexible options that include private label branding or reselling of the Mconnect service.

Mconnect Offers:

- * Flat-rate, unlimited calling plans for residential, SOHO and business clients at rates competitive with any leading VoIP Provider
- * Feature rich calling plans without hidden charges.

Benefits:

- * Nationwide Tier 1, redundant private network coverage
- * True Competitive Edge
- * Increased revenue opportunities

Flexible Options:

- * **Generic** - Resellers are given a code and simply resell the Mconnect service by driving customers to the Mconnect website and having them enter the reseller code during the sign-up process. This option requires no risk and no capital investment. The reseller is required to provide Tier 1 support services to their end-users.
- * **Private Label** - Resellers can re-label the Mconnect service and sell it under their own brand name. There is an initial investment of \$2,500 required for the private label program. This fee includes sales and marketing materials, website signup tool, training and support, and entitles the reseller to sell the full range of residential, SOHO and business services. The reseller is required to provide Tier 1 support services to their end-users.

Reseller Requirements:

- * Existing customer base
- * An effective sales/marketing team
- * A commitment to generate seats on a consistent basis

According to In-Stat Research, "The Centrex/Hosted IP market is primed for substantial growth over the next four years. The demand in the SME (Small-Medium Enterprise) market, the recognized sweet spot for these hosted services, has been accelerating for some time and will continue to perform at a year-over-year growth rate of 90% through 2009"

**Experience the difference that sets Mconnect apart from other VoIP services and
